PB VERDICT Ticks lots of boxes, plus it looks smart and sassy, too! **RATING** ★★★★★

Think about...

- ❖ Will you need to collapse your buggy to store it, and how easy is this to do one-handed?
- ❖ How much will you use it? Spend less on an occasional trip buy, and more on an everyday buy.
- ❖ Do you want it to last for any children you have in the future, too?
- ❖ How big is your car boot and will the buggy fold and fit in it easily?
- ❖ Will your child be safe, secure and comfortable in the pushchair?
- ❖ How easy will it be to keep clean? Are fabrics removable and washable?
- ❖ Summer trips often mean bright sunlight – look out for a deep hood with UV protection, plus a sunshade.
- ❖ 'From birth' doesn't necessarily mean suitable for a newborn.
