Step 22:
It is advised for safety reasons that the wardrobe is connected to the wall using the wall strap provided. All walls are different composition and it is important the correct fittings are used. Wall fittings are not supplied with this furniture and it is advised to consult a professional before fitting.
Step 24:

Fix the wall strap to the furniture as shown with the fittings provided – do not use these fittings to connect to the wall. Consult a professional before fitting the strap to the wall.
Warnings & Instructions
For Safe Use & Maintenance

WARNING
NEVER LEAVE YOUR CHILD UNATTENDED.
The safety of your child is your responsibility.

Regularly check all fittings and components are
fully tightened and in good working order. If any
parts have become worn or damaged then do not
use the product and seek advice from your retailer
or Silver Cross. Only use spare parts supplied by
Silver Cross.

Be aware of the risk of open fire and other sources
of strong heat, such as electric bar fires, gas fires
etc. in the near vicinity of the wardrobe.

Never use the wardrobe if any parts are broken or
missing.

Never drag or pivot the wardrobe. It must be
lifted and moved by at least two people.

Before use, ensure the wardrobe is on a level,
stable surface.

Do not allow children to climb on the wardrobe.

The wardrobe can be cleaned with a damp cloth.
Never use bleach, abrasive or strong detergents.

Thoroughly dry immediately after cleaning.

WALL STRAP INFORMATION
Never modify or change the wall strap in any way.
Never use any other fittings other than those
supplied to attach the wall strap to the wardrobe.

The wall strap provided is to be used with this
product only.

Never use the screw provided to attach the strap
to the wall. All walls are of different composition
and it is important that the correct wall fittings are
used. Consult a professional before attempting
to attach the strap to the wall. No wall fittings are
supplied with this product.

The wall strap must not be used to replace any
other fittings supplied with this piece of furniture.

We recommend the wall strap is used in all cases.
To improve the stability of the furniture an even
wood or tiled floor is best. A carpeted or warped
floor can enable the furniture to rock, increasing
the potential of the furniture to fall over.
